Guarding the Guardians Mar 14 2021 The relationship between civil society and the armed forces is an essential part of any polity, democratic or otherwise, because a military force is after all a universal feature of social systems. Despite significant progress moving towards democracy among some African countries in the past decade, all too many African militaries have yet to accept core democratic principles regulating civilian authority over the military. This book explores the theory of civil-military relations and moves on to review the intrusion of the armed forces in African politics by looking first into the organization and role of the army in pre-colonial and colonial eras, before examining contemporary armies and their impact on society. Furthermore it revisits the various explanations of military takeovers in Africa and disentangles the notion of the military as the modernizing force. Whether as a revolutionary force, as a stabilizing force, or as a modernizing force, the military has often been perceived as the only organized and disciplined group with the necessary skills to uplift newly independent nations. The performance of Africa's military governments since independence, however, has soundly disproven this thesis. As such, this study conveys the necessity of new civil-military relations in Africa and calls not just for civilian control of the military but rather a democratic oversight of the security forces in Africa.

Trusted Guardian Jul 06 2020 The exploitation of superior US systems for the collection, analysis and distribution of information currently undermines US leadership in the context of transatlantic crisis management. The USA's clear lead in information technology creates political liabilities with respect to both allies and adversaries, while political-technical tradeoffs warrant a more open approach to information systems, information production, and information sharing among allies. Clearly distinguishing the role of information in winning wars versus managing crises, this book extends existing models for how breakdowns occur in international bargaining. Allies, who share preferences but not the resolve of a coalition leader, are brought into the explanation for war as a rational outcome of incomplete information. Case studies ranging from Cold War Berlin to the War in Iraq illustrate how national classified systems that underwrite large margins of victory in conventional combat fail to inspire trust among allies during the crucial, preceding stage of crisis bargaining. The volume offers powerful arguments for a new direction in defence transformation.

The Fallen Guardian Jul 30 2022 As Kana flew toward the southern edge of the Black Forest, she could see a massive group of orcs below her... She knew that this day would mark the end of the elves' reign in the land. On the eve of battle, Kishi gathers her troops and prepares for the greatest fight of her life, knowing that this could mean the end of all she holds dear. The Orcs are moving and the evil that has already broken apart her home and family is reaching ever further across the land she holds dear. With the help of those still loyal to her and her cause, Kishi must ride out and meet the force that threatens her very livelihood. In the thrilling second installment of The Guardian Chronicles swords finally cross and irrevocable allegiances met. Join author Steven R. Burke once again for the epic tale of The Fallen Guardian.

White Fells Nov 21 2021 Scota is an earthly princess who does not believe in the fairy world until she meets a defiant captive named Boyden, who is revealed to be a legendary fey fighter trying to stop earthly incursions into his realm. Original.

Livestock guardian dog Feb 22 2022 Are you interested in the breeds of guard dogs? You have made a good choice. Herd protection dogs are something very special and that in every respect. They impress not only with their imposing size, but also by their external appearance. This can be very striking depending on the breed. While some come up with a beautiful long and white coat, others have shaggy hair that looks like dreadlocks. Many of these guard dogs have in common that they are descended from Asian dogs, which came to Europe many thousands of years ago through the migrations. These dogs already possessed the important qualities of natural protection and guarding instincts, and also the gift of acting independently and making decisions without human interference. The contents of the book are: - Difference guard dog and herding dog - A portrait of guard dogs - Which breeds are there? - Education of the dogs - Herding dogs at home - FCI Standards - Summary Even the diet of the guard dogs, which is still unusual today, can be traced back to this time. They are not fed like conventional domestic dogs, but much lower in protein. Furthermore, these dogs are also able to digest dairy products, which is not the case with normal dogs and can lead to digestive disorders. Now the future owner of such a dog should be aware, however, that likewise the attitude and education can lead to considerable problems. Such a large dog needs a lot of space and it is not enough to have a small garden. The demands of a guard dog are somewhat higher and you must be able to fulfill them, so that your companion can lead a species-appropriate life. As you can see from these few lines, a guard dog is not a dog for everyone. It belongs in absolutely experienced hands. If you belong to these experienced hands, inform yourself in this guide about the different breeds of guard dogs. Learn what belongs to their strengths and weaknesses and whether such a special dog is also suitable as a family dog. Have fun reading and learn

The Guardian of Heaven Oct 28 2019 Galaedael is the fifth book in the Guardian of Heaven Series. This book chronicles the sojourn of the two prophets sent to deliver Israel as our civilization draws to an end.

Gray/Guardians Jan 04 2023 Two alien races vie for the fate of Earth in Kathy Porter's thrilling sci-fi epic, Gray/Guardians. Wracked with environmental disaster and disease, humanity must decide whether to listen to the Grays, extraterrestrials who offer safe harbor on their planet, or the Guardians, who claim the Grays are using people as guinea pigs. The fate of mankind hangs in the balance in this chill-a-second novel.

Command and Control Mar 26 2022 The Oscar-shortlisted documentary Command and Control, directed by Robert Kenner, finds its origins in Eric Schlosser's book and continues to explore the little-known history of the management and safety concerns of America's nuclear arsenal. "A devastatingly lucid and detailed new history of nuclear weapons in the U.S. Fascinating." —Lev Grossman, TIME Magazine "Perilous and gripping . . . Schlosser skillfully weaves together an engrossing account of both the science and the politics of nuclear weapons safety." —San Francisco Chronicle A myth-shattering exposé of America's nuclear weapons Famed investigative journalist Eric Schlosser digs deep to uncover secrets about the management of America's nuclear arsenal. A groundbreaking account of accidents, near misses, extraordinary heroism, and technological breakthroughs. Command and Control explores the dilemma that has existed since the dawn of the nuclear age: How do you deploy weapons of mass destruction without being destroyed by them? That question has never been resolved—and Schlosser reveals how the combination of human fallibility and technological complexity still poses a grave risk to mankind. While the harms of global warming increasingly dominate the news, the equally dangerous yet more immediate threat of nuclear weapons has been largely forgotten. Written with the vibrancy of a first-rate thriller, Command and Control interweaves the minute-by-minute story of an accident at a nuclear missile silo in rural Arkansas with a historical narrative that spans more than fifty years. It depicts the urgent effort by American scientists, policy makers, and military officers to ensure that nuclear weapons can't be stolen, sabotaged, used without permission, or detonated inadvertently. Schlosser also looks at the Cold War from a new perspective, offering history from the ground up, telling the stories of bomber pilots, missile commanders, maintenance crews, and other ordinary servicemen who risked their lives to avert a nuclear holocaust. At the heart of the book lies the struggle, amid the rolling hills and small farms of Damascus, Arkansas, to prevent the explosion of a ballistic missile carrying the most powerful nuclear warhead ever built by the United States. Drawing on recently declassified documents and interviews with people who designed and routinely handled nuclear weapons, Command and Control takes readers into a terrifying but fascinating world that, until now, has been largely hidden from view. Through the details of a single accident, Schlosser illustrates how an unlikely event can become unavoidable, how small risks can have terrible consequences, and how the most brilliant minds in the nation can only provide us with an illusion of control. Audacious, gripping, and unforgettable, Command and Control is a tour de force of investigative journalism, an eye-opening look at the dangers of America's nuclear age.

A Guardian's Tale: Remnant Wars Sep 19 2021 Ari has been a warrior in a battle between her race and the remnant race for over 500 years. Driven by her own desire to avenge her sire and protect the mortal race from the underworld of supernatural beings she must find herself. She has always been accompanied by fellow guardians but when the council sends her on a secret mission she discovers the world of the remnants isn't so black and white. Especially when she discovers mysterious pureblood turned remnant Keeper. Will she kill them all and return to her tower or will she choose to betray her own race. Adult Content Also Available Book 2: Remnant King Book 3: Rise of the Ancients Coming Soon The Remnant Queen

Colliery Guardian, and Journal of the Coal and Iron Trades Jan 30 2020

The Guardian Jun 04 2020 In the second installment, and prequel, to The Nine Realms, a man, an agent known only as The Guardian is thrown into the turmoil of the Second Great War. Led by none other than the Emperor, the Guardian falls into a series of events leading to him falling out with the famed, and powerful Elf. Mara, soon to be Empress of the Dark Empire is forced to come to terms with her new powers, new lover, and new place in the world. The female Elf does everything in her power not to be too overshadowed by Omega, being drawn into a series of powerstruggles that affect the very world itself. All across the world, events conspire to bring David into a new role in life. The unassuming college student is inexorably drawn into a war in which he has no knowledge of how to fight, or how to lead. Yet, he would be probably the most influential man in modern history.

Guardian Angel Nov 09 2020 Sunday's power is gone... And she is bound and determined to get it back...or at least do something useful. When Puck offers to let her tag along on a mission to root out rogue Guardian groups, she jumps at the chance to help. But along the way, Sunday discovers that maybe the Guardians aren't the good guys she thought they were. What Sunday does will leave you speechless...

The Guardians Aug 31 2022 The Tirgonian Empire, always on the hunt for conquest and expansion, does not consider the efforts of the rebel Guardians a serious threat to their imperial plans. After a series of devastating conflicts, the Guardians have suffered massive losses to their forces but not their resolve. They continue to fight their way into Tirgonian territory, undaunted by defeat. Even though the Guardians are focused on escaping the Tirgonian forces, commanded by Telecoup Mular, tension mounts between several of the Guardian survivors. The few remaining Guardians are bolstered by the arrival of additional survivors, but the initial contact does not go smoothly. The survivors arrive on a new sort of spaceship, one that the Guardians have never seen. Once the Guardians realize their mistakes, it is revealed that there are more concealed ships, hopefully increasing their chances of survival. The Guardians must now invent unique solutions to seemingly unsolvable problems. The unexpected defection of a senior Tirgonian officer named Telebisque Serligh Teka, his entire crew, and their Fighting Star Palup is a welcome boost to the weary rebel effort. Renewed, the Guardians continue fighting their way across enemy territory. Against seemingly insurmountable odds, can the Guardians prevail? And if so, at what cost?

The Guardian, Or Youth's Religious Instructor Sep 07 2020

The Seed of the Guardians May 28 2022 The Seed of the Guardians is the story of a highly advanced race of beings from the inner arm of the galaxy that had developed a long life span and submitted to mental control to weed out their violent emotions. The plan worked and they spread their non-violent philosophy thru their section of the galaxy, over-seeing the other peoples they came in contact with. They were known as the Guardians. They became so passive that when they came in contact with a race of beings that they could not control, they were unable to defend themselves or the races they protected. They came up with a plan to send one of their ships to the next arm of the galaxy and attempt to plant the seeds of their long life and controlled passions in another race that could still fight if need be.

In Command of Guardians: Executive Servant Leadership for the Community of Responders Dec 03 2022 First responders in the fire, emergency, and police agencies work in high-risk, critical situations, and require effective leadership. Using the approach of Servant Leadership, Dr. Russell explains how executive level/chief officers can lead their teams by helping responders develop and perform as highly as possible and meet the needs of their followers. To bring the power of this philosophical approach towards leadership to life, this book demonstrates how its many aspects come together as a system, in order to strengthen the community of emergency responders. Featuring case studies and questions as meditative exercises, the book offers readers a rich learning experience. Targeted at fire chiefs, fire commissioners, police chiefs, and Emergency Medical Service, and other first responders, this book will have a positive impact on these organizations and the communities they serve. It is also useful for training aspiring executive level leaders/chief officers.

Iron & Coal Trades Review Apr 14 2021 Vol. 115 includes Diamond jubilee issue, 1867-1927.

A (Stronghold Legend) Guardian Angels Dec 23 2021 Emperor Brian Whitfield feb , 2 , 2013 wrote a second book of study and wisdom that encourages and empowers our political , religious , correctional , educational , and productive institutions to govern through the ways of righteous saints always and to oppose the ways of governing that causes anti christ and contradiction which affects how honorable and blessed us commanders stay. This book focuses on and strengthens our guardian angel duties and accountabilities as the king of kings can only grow powerful successors and peaceful reigns that nobody is ever hurt around our guard duty ever throughout our ascensions of strong commanders always. Referred books of study : A (Ruler) Education by Brian Whitfield , The prince , The art of war , The art of peace , The Knight Triumphant , and The Leadership Bible.

Command Control Apr 26 2022 Maya worked hard jobs all her life, and a devastating explosion at sea turned her from a hard worker into a crispy critter. Bedridden and blind, she accepts the order from the Volunteer Project and gets herself reset into a body that can move and skin that isn't black. She did not think of anything aside from getting her body back under her control, so when she ends up at her assignment as a guardian communicator and tactician for three worlds, she does the job with good cheer until she got the first day off. Having locals trying to seduce her was strange, but knowing that she had been reset with the genes to be one of their queens, she just tried to ignore it. An act of kindness puts her in the path of a guardian who coincidentally also has a day off, and her day in the sun warms up considerably from there. The next day she meets his teammate, and the next teammate the day after that. The new genes come with new morals and less control.

The New Guardians Nov 02 2022 This is the continuing story from the Seed of the Guardians. With their existence now known around the world, the new guardians must master the ancient knowledge left behind by an ancient race to obtain control of all guardian technology. First they must achieve space flight, go to Mars and prove themselves worthy through a series of impossible tests and sacrifices.

The Guardian Directive Jan 12 2021 Primitive humans on Earth have been eking out an existence as hunter-gatherers and farmers for millennia. Some live in large villages and small towns, while others haven't yet discovered the wheel. What could be a worse time for an alien invasion? But by a beneficial turn of fate, an altruistic race of space explorers discovers the coming invasion before it starts. Only twenty-five years earlier, they too had discovered the Earth and had been unobtrusively studying the local inhabitants. Although unprepared to stop an invasion, they move to intervene, hoping to save the innocents on Earth from domination and potential annihilation by a ravenous species of conquerors. The wormlike Rhulle want to colonize the rich planet as a springboard for further conquests, and they plan to cultivate the indigenous humans as a food source. The far-thinking Hasdradan want to protect Earth and allow its primitive humans to evolve into potential trading partners. The Rhulle and the Oligarchy of Hasdrada have been fighting a bitter war of attrition and annihilation for eighty years. Now, the latest battleground turns out to be Earth, in the year 4350 BC.

The Evangelical Guardian May 04 2020

Guardian of Savannah Jul 18 2021 "Historian Roger S. Durham offers a history of Fort McAllister's construction, strategic importance during the Civil War, and postwar neglect and restoration in this account of how an earthen defense withstood not only devastating naval assaults but also the detrimental effects of time. In re-creating the story, Durham intertwines historical facts with human fates through frequent use of primary sources, letting the fort's defenders and attackers speak for themselves and bringing readers into the fiery heat of battle."--Book jacket.

Guardian at Angels Gate Jun 16 2021 An executive order-issued September 14, 1888-set aside a strip of land adjacent to the boundary of the newly incorporated city of San Pedro, California. Signed by President Grover Cleveland, the order designated the area of "the old government reservation" to be used as a military reservation. It is from this point in time that Fort MacArthur traces its military career. As a part of the US Air Force's Los Angeles Air Force Base, the post continues in its purpose of public service to the citizens of the United States of America. The Fort MacArthur Museum is charged with preserving its military past. Towards that goal this history has been compiled to preserve the history of this important post. Much of this work was derived from materials prepared by Col. Gustafson for distribution to the Army personnel and visitors of Fort MacArthur in the late 1970s.

Guardians of Empire Feb 10 2021 In a comprehensive study of four decades of military policy, Brian McAllister Linn offers the first detailed history of the U.S. Army in Hawaii and the Philippines between 1902 and 1940. Most accounts focus on the months preceding the Japanese attack on Pearl Harbor. By examining the years prior to the outbreak of war, Linn provides a new perspective on the complex evolution of events in the Pacific. Exhaustively researched, *Guardians of Empire* traces the development of U.S. defense policy in the region, concentrating on strategy, tactics, internal security, relations with local communities, and military technology. Linn challenges earlier studies which argue that army officers either ignored or denigrated the Japanese threat and remained unprepared for war. He demonstrates instead that from 1907 onward military commanders in both Washington and the Pacific were vividly aware of the danger, that they developed a series of plans to avert it, and that they in fact identified even if they could not solve many of the problems that would become tragically apparent on 7 December 1941.

The Naval Guardian, Etc Oct 09 2020

Guardians of the Kingdom Oct 01 2022 On the moon Titan the Environs are attacking the quiet village of Glastonbury. Jonathan and Tina Thatcher had gone swimming early in the day. Now Jonathan and Tina are running for their lives. Jonathan and Tina are afraid, cold and hungry. Jonathan and Tina continue to hide but they are caught. Napoleon's Shield & Guardian Oct 21 2021 This outstanding biography is the story of courage. It charts the career of a superbly brave cavalryman against the rise and fall of his imperial master. Pierre Daumesnil was a loyal follower of Napoleon during his rise and his fall. Enlisting as a private soldier in 1793, he was caught up in the tumult of the Napoleonic Wars, surviving campaign after campaign and emerging as a much-decorated general and Baron of the Empire. It was a meteoric rise but one earned through hard fighting, bravery and indefatigable courage. Daumesnil accompanied Napoleon as an officer of his chasseurs and his service record reflects his years of experience on the field of battle. Daumesnil joined the French Army as a private in 1793 and was serving in Napoleon's Guides in 1797. He served in Egypt in 1798, charged at Marengo in 1800, fought at Austerlitz and Eylau, campaigned in Spain and saw action in Wagram. Terribly wounded at that battle, losing a leg, Daumesnil became governor of the fortress of Vincennes. It was here that he played his most celebrated role in the wars of Napoleon by refusing to surrender the fortress to the Allies in 1814 and again in 1815. Daumesnil's life was an adventure and one which typifies the dash, colour and verve of this astonishing period. This biography, by a leading author, will appeal to Napoleonic enthusiasts and those interested in the life and times of Napoleon's elite cavalrymen.
