The last decade has witnessed a dramatic decline in the presence and influence of legacy news organizations. This decline has led to tremendous growth in news startups, which have attempted to fill the gap left by their legacy counterparts by producing the quality public service journalism upon which the health of U.S. democracy depends. If legacy news organizations, with their existing infrastructure, are failing, can these startups do any better? This question lies at the heart of Journalism Without Profit. Magda Konieczna explores three prominent news nonprofits: the Center for Public Integrity, one of the oldest and largest of its kind; the Wisconsin Center for Investigative Journalism, a university-based watchdog news organization that relies on others to publish its work; and MinnPost, an online news website. Through in-depth study of the practices of each newsroom, Konieczna isolates one common behavior that will contribute to their success: the way these organizations collaborate and share stories. Though this emergent behavior differentiates news nonprofits from the mainstream

journalism from which they arose, it also ties the two forms of journalism together, as news nonprofits attempt to share stories with mainstream publications. In other words, the very behavior that may enable these organizations to do better than their mainstream counterparts also limits their ability to evolve much beyond them. In one of the first major books to focus on nonprofit journalism, Konieczna investigates the major questions that will open the field up to further study. Where did nonprofit news come from, and where is it going? Who funds it, and why? Ultimately, Konieczna offers a new way to think about the seismic changes in journalism that are defining the 21st-century. Profit — getting more out of something than you put into it — is the original genius of homo sapiens, who learned how to unleash the energy stored in wood, exploit the land, and refashion ecosystems. As civilization developed, we found more and more ways of extracting surplus value from the earth, often deploying brutally effective methods to discipline people to do the work needed. Historian Mark Stoll explains how capitalism supercharged this process and traces its many environmental consequences. The financial innovations of medieval Italy created trade networks that, with the European discovery of the Americas, made possible vast profits and sweeping cultural changes, to the detriment of millions of slaves and indigenous Americans; the industrial age united the world in trade and led to an energy revolution that changed lives everywhere. But when efficient production left society awash in goods, a new sort of capitalism, predicated on endless individual consumption, took its place. This story of incredible ingenuity and villainy begins in the Doge's palace in medieval Venice and ends with Jeff Bezos aboard his own spacecraft. Mark Stoll's revolutionary account places environmental factors at the heart of capitalism's progress and reveals the long shadow of its terrible consequences. Original. From Mike Michalowicz, the author of PROFIT FIRST, CLOCKWORK, and THE PUMPKIN PLAN, comes the ultimate diagnostic tool for every entrepreneur. The biggest

problem entrepreneurs have is that they don't know what their biggest problem is. If you find yourself trapped between stagnating sales, staff turnover, and unhappy customers, what do you fix first? Every issue seems urgent -- but there's no way to address all of them at once. The result? A business that continues to go in endless circles putting out urgent fires and prioritizing the wrong things. Fortunately, Mike Michalowicz has a simple system to help you eradicate these frustrations and get your business moving forward, fast. Mike himself has lived through the struggles and countless distractions of entrepreneurship, and devoted years to finding a simple way to pinpoint exactly where to direct attention for rapid growth. He figured out that every business has a hierarchy of needs, and if you can understand where you are in that hierarchy, you can identify what needs immediate attention. Simply fix that one thing next, and your business will naturally and effortlessly level-up. Over the past decade, Mike has developed an ardent following for his funny, honest, and actionable insights told through the stories of real entrepreneurs. Now, Fix This Next offers a simple, unique, and wildly powerful business compass that has already helped hundreds of companies get to the next level, and will do the same for you. Immediately.
