Economics and Literature Aug 01 2020 Since the Middle Ages, literature has portrayed the economic world in poetry, drama, stories and novels. The complexity of human realities highlights crucial aspects of the economy. The nexus linking characters to their economic environment is central in a new genre, the "economic novel", that puts forth economic choices

and events to narrate social behavior, individual desires, and even non-economic decisions. For many authors, literary narration also offers a means to express critical viewpoints about economic development, for example in regards to its ecological or social ramifications. Conflicts of economic interest have social, political and moral causes and consequences. This book shows how

economic and literary texts deal with similar subjects, and explores the ways in which economic ideas and metaphors shape literary texts, focusing on the analogies between economic theories and narrative structure in literature and drama. This volume also suggests that connecting literature and economics can help us find a common language to voice new, critical

perspectives on crises and social change. Written by an impressive array of experts in their fields, Economics and Literature is an important read for those who study history of economic thought, economic theory and philosophy, as well as literary and critical theory.

Teaching Language and Literature in Elementary

Classrooms Apr 28
2020 The goal of this book -- a theoretically based, well-organized, useful guide for teaching -- is to

help the beginning teacher create a classroom environment that integrates literacy development with learning in all areas of the curriculum. The major components of an integrated language program are identified, and the skills teachers need to implement this kind of program in their own classrooms are described.

Designed to be kept and used as a resource in the classroom, this text provides fundamental information about language arts teaching. A constructivist orientation, an emphasis on teachers as reflective decision makers, and vivid

portrayals of the classroom as a community of learners and inquirers are woven throughout the book. Key features include: * a wealth of models, suggestions, and step-by-step guidelines for introducing integrated teaching and learning practices into elementary classrooms at the kindergarten, primary, and intermediate levels; * a focus on relevant research in language arts and professional teacher development; * true-to-life classroom narratives that model instructional strategies and demonstrate interactions

between real teachers and students; and * an innovative chapter format that makes the text accessible as a resource for student, beginning, and experienced teachers.

Relating the blues to American social and literary history and to Afro-American expressive culture, Houston A. Baker, Jr., offers the basis for a broader study of American culture at its "vernacular" level. He shows how the "blues voice" and its economic

undertones are both central to the American narrative and characteristic of the Afro-American way of telling it.

fiction. Considers how our understanding of American literature has changed over the past twenty years. Provides an invaluable introduction to the subject for students of American literature, American studies, and all those interested in the literature and culture of the United States. [Connecting Literature and Science](#) Jan 06 2021 This book presents a case for engagement between the sciences and the humanities. The

author, a professional chemist, seeks to demonstrate that the connections between those fields of intellectual activity are far more significant than anything that separates them. The book combines a historical survey of the relationships between science and literature with a number of case studies that examine specific scientific episodes—several drawn from the author's own research—juxtaposed with a variety of literary works spanning a wide range of period and genre—Dante to detective fiction, *War and Peace* to *White Teeth*—to elicit their common themes. The work

argues for an empirical, non-theory-based approach, one that is closely analogous to connectionist models of brain development and function, and that can appeal to general readers, as well as to literary scholars and practicing scientists, who are open to the idea that literature and science should not be compartmentalized. **The Bourgeois** Mar 08 2021 "The bourgeois ... Not so long ago, this notion seemed indispensable to social analysis; these days, one might go years without hearing it mentioned. Capitalism is more powerful than ever, but its human

embodiment seems to have vanished. 'I am a member of the bourgeois class, feel myself to be such, and have been brought up on its opinions and ideals,' wrote Max Weber, in 1895. Who could repeat these words today? Bourgeois 'opinions and ideals'—what are they?" Thus begins Franco Moretti's study of the bourgeois in modern European literature—a major new analysis of the once-dominant culture and its literary decline and fall. Moretti's gallery of individual portraits is entwined with the analysis of specific keywords—"useful" and "earnest," "efficiency," "influence," "comfort,"

"roba"—and of the formal mutations of the medium of prose. From the "working master" of the opening chapter, through the seriousness of nineteenth-century novels, the conservative hegemony of Victorian Britain, the "national malformations" of the Southern and Eastern periphery, and the radical self-critique of Ibsen's twelve-play cycle, the book charts the vicissitudes of bourgeois culture, exploring the causes for its historical weakness, and for its current irrelevance. *Word Crimes* May 30 2020 In 1883 newspaper editor G.W. Foote stood trial three times for blasphemy. Here

Joss Marsh reconstructs the forgotten cases of more than 200 working-class "blasphemers" in Victorian England, whose stubborn refusal to silence their "hooligan" voices, along with Foote, helped secure our rights to speak and write freely today. 22 photos. *Native American Literature* Aug 13 2021 Along the way readers encounter the diversity of Indigenous peoples who, owing to their differing lands, livelihoods, and customs, evolved literatures adapted to a nation's specific needs. While, in the nineteenth century, public lecture and journalism fortified eastern Indigenous

writers against removal west, nearly a century later autobiography enabled western Indigenous authors to tell their side of the winning of the west. Throughout he treats Indigenous literature with such complexity. He describes the single-handed invention of a written Indigenous language, the first Indigenous language newspaper, and the literary occupation of Alcatraz Island. Returning to contemporary poetry, drama, and novel by authors such as D'Arcy McNickle, Leslie Silko, Sherman Alexie, Louise Erdrich, Craig Womack, Teuton demonstrates that,

like Indigenous people, Indigenous literature survives because it adapts, honoring the past yet reaching for the future.

Text Book Feb 25 2020 Designed for literature-based writing courses, *Text Book* introduces students to the idea that literary texts and ordinary spoken and written language share many of the same features. By providing imaginative methods and unique assignments that let students work with those features in their writing, *Text Book* involves students in the processes of exploring literature creatively, not simply consuming and analyzing it,

helping them understand literature "from the inside out." *Recoding World Literature* Oct 27 2022 Winner, 2018 Aldo and Jeanne Scaglione Prize for Studies in Germanic Languages and Literatures, Modern Language Association Winner, 2018 German Studies Association DAAD Book Prize in Germanistik and Cultural Studies. From the current vantage point of the transformation of books and libraries, B. Venkat Mani presents a historical account of world literature. By locating translation, publication, and circulation along routes of "bibliomigrancy"—t

he physical and virtual movement of books—Mani narrates how world literature is coded and recoded as literary works find new homes on faraway bookshelves. Mani argues that the proliferation of world literature in a society is the function of a nation's relationship with print culture—a Faustian pact with books. Moving from early Orientalist collections, to the Nazi magazine *Weltliteratur*, to the European Digital Library, Mani reveals the political foundations for a history of world literature that is at once a philosophical ideal, a process of exchange, a mode

of reading, and a system of classification. Shifting current scholarship's focus from the academic to the general reader, from the university to the public sphere, *Recoding World Literature* argues that world literature is culturally determined, historically conditioned, and politically charged. **Women in Twentieth-Century Literature** Aug 21 2019 An interdisciplinary work, comparative in nature, which offers extensive and extremely significant information about the cultural context of each work studied as well as

penetrating analyses of the characters and situations from the unique perspectives of the psychology/philosophy developed by C.G. Jung. Dr. Knapp here concentrates on Garcia Lorca's *Yerma*, Elizabeth Bowen's *The Death of the Heart*, Isak Dinesen's "Peter and Rosa," Nathalia Ginzburg's *All Our Yesterdays*, Flannery O'Connor's *Everything that Rises Must Converge* Jean Rhys's *Wide Sargasso Sea*, Nathalie Sarraute's *Between Life and Death*, Pa Chin's *Family*, Fumiko Enchi's *Masks*, and Anita Desai's *Fire on the Mountain*. This is an important

book to scholars in women's studies, in the relation of psychology and literature, in religious studies and philosophy as the relate to women, and in the contemporary novel and world literature.

Comparative

Literature Apr 09 2021 Considering literature comparatively can help readers realize how much can be learned by looking beyond the horizon of their own cultures, discovering not only more about other literatures, but also about their own. Ben Hutchinson offers a history of comparative literature, placing it at the heart of literary criticism. Christianity and

Literature Nov 16 2021 "What has Jesus Christ to do with English literature?" ask David Lyle Jeffrey and Gregory Maillet in this insightful survey. First and foremost, they reply, many of the world's best authors of literature in English were formed--for better or worse--by the Christian tradition. Then too, many of the most recognized aesthetic literary forms derive from biblical exemplars. And finally, many great works of literature demand of readers evaluative judgments of the good, the true and the beautiful that can only rightly be understood within a Christian

worldview. In this book Jeffrey and Maillet offer a feast of theoretical and practical discernment. After an examination of literature and truth, theological aesthetics, and the literary character of the Bible, they turn to a brief survey of literature from medieval times to the present, highlighting distinctively Christian themes and judgments. In a concluding chapter they suggest a path for budding literary critics through the current state of literary studies. Here is a must-read for all who are interested in a Christian perspective on literary studies. **A Celebration of Literature and**

*An Introduction to
Religion and
Literature* May 22
2022 Religion has
always been an
integral part of the
literary tradition:
many canonical and
non-canonical texts
engage extensively
with religious ideas,
and the
development of
English Literature
as a professional
discipline began
with an explicit
consideration of the
relationship
between religion
and literature.
Literature also

plays an important role in religious writing, as twentieth-century work on narrative theology has acknowledged. Both the recent theological turn of literary theory and the renewed political significance of religious debate in contemporary western culture have generated further interest in this interdisciplinary area. An Introduction to Religion and Literature offers a lucid, accessible and thoughtful introduction to the study of religion and literature. While the focus is on Christian theology and post-1800 British literature,

substantial reference is made to earlier writers, texts from North America and mainland Europe, and other faith positions. Each chapter takes up a major theological idea and explores it through close readings of well-known and influential literary texts.

Literary Miscellany Sep 26 2022
Literary Miscellany is a breezy tour through the literature of today and yesterday, touching on many great classical literary works, movements, and trends. But don't fear that it's only for intellectuals—the re's plenty here for the contemporary pleasure reader as

well. Alex Palmer offers something for everyone, including answers to the following questions: What's the original bestseller? What authors introduced insults as a literary art form? Who burned the first book? Are writers more likely to be depressed than booksellers? How does a book become a movie? When did sex become part of literature? Most people don't know that the Bible gets credit for plenty of lines that were written by William Shakespeare or John Milton. In *Literary Miscellany*, learn how this happened. Also examine the more recent concept of "false memoirs," with a list of who

lied about what. And speaking of villains, was the devil the first bad guy in print? Did his appearance lead to the inevitable self-help book? Or was that Oprah? This quirky work is filled with entertaining literary trivia from a unique perspective on writers' lives and inspirations, from the drinks they imbibed to the books they penned. Delightfully illustrated, it will entertain casual readers and literary buffs alike.

Literature for Young Adults Jan 18 2022 Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes,

protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, Literature for Young Adults includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films

can be used to complement print literature, they are also a literacy format in their own right--and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language--including traditional elements as well as metafictional terms--enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.

The Big Red Book of Modern Chinese

Literature: Writings from the Mainland in the Long Twentieth Century Sep 02

2020 A panoramic vision of the Chinese literary landscape across the twentieth century. Award-winning literary scholar and poet

Yunte Huang here gathers together an intimate and authoritative selection of significant works, in outstanding translations, from nearly fifty Chinese writers, that together express a search for the soul of modern China. From the 1912 overthrow of a millennia-long monarchy to the Cultural Revolution, to China's rise as a global military and economic superpower, the Chinese literary imagination has encompassed an astonishing array of moods and styles—from sublime lyricism to witty surrealism, poignant documentary to the ironic, the transgressive, and

the defiant. Huang provides the requisite context for these revelatory works of fiction, poetry, essays, letters, and speeches in helpful headnotes, chronologies, and brief introductions to the Republican, Revolutionary, and Post-Mao Eras. From Lu Xun's Call to Arms (1923) to Gao Xinjiang's Nobel Prize-winning Soul Mountain (1990), this remarkable anthology features writers both known and unknown in its celebration of the versatility of writing. From belles lettres to literary propaganda, from poetic revolution to pulp fiction, The Big Red Book of Modern Chinese Literature is an eye-

opening, mesmerizing, and indispensable portrait of China in the tumultuous twentieth century.

On Linging and Literature Dec 05 2020 Linging and its decried equivalents, such as dawdling, idling, loafing, or lolling about, are both shunned and coveted in our culture where time is money and where there is never quite enough of either. Is lingering lazy? Is it childish? Boring? Do poets linger? (Is that why poetry is boring?) Is it therapeutic? Should we linger more? Less? What happens when we linger? Harold Schweizer here examines an experience of time that, though

common, usually passes unnoticed. Drawing on a wide range of philosophic and literary texts and examples, *On Linging and Literature* exemplifies in its style and accessible argumentation the new genre of post-criticism, and aims to reward anyone interested in slow reading, daydreaming, or resisting our culture of speed and consumption.

Myth and

Literature Feb 07 2021 This collection of thirty-four major essays devoted to the theories, methods, and problems of myth criticism offers a convenient and substantial introduction to one of the most distinctive trends in contemporary literary study. The essays (many of them previously uncollected) are arranged to lead from general considerations to analyses of specific authors. The four Part I selections constitute an informal survey of

the views of myth and ritual taken by disciplines other than literature. In Part II the first six essays relate the concept of myth and ritual to general literary theory, while the final three evaluate the uses of myth in critical theory and practice. The twenty-one Part III essays, which apply myth criticism to individual literary works or authors, afford a representative sampling of the mythopoeic patterns discerned in literature from Home to Faulkner. The book

explores the workings of self-reference (and the related performativity) in linguistic utterances and assorted texts, through examples of the more open social-discursive systems of post-structuralism and cultural studies, and into the sciences, where complex systems organized by recursive self-reference are now being embraced as an emergent paradigm. This paradigmatic convergence between the humanities and sciences is autopoetics (adapting biologist Hubert Maturana's term for "self-making" systems), and it signals a

long-term epistemological shift across the nature/culture divide so definitive for modernity. If cultural theory has taught us that language, because of its self-referential nature, cannot bear simple witness to the world, the new paradigmatic status of self-referential systems in the natural sciences points toward a revived kinship of language and culture with the world: language bears "witness" to the world. The main movement of the book is through a series of model explications and analyses, operational definitions of concepts and terms, more extended case

studies, vignettes and thought experiments designed to give the reader a feel for the concepts and how to use them, while working to expand the autopoietic internee by putting cultural self-reference in dialogue with the self-organizing systems of the sciences. Along the way the reader is introduced to self-reference in epistemology (Foucault), sociology (Luhmann), biology (Maturana/Varela/Kauffman), and physics and cosmology (Smolin). Livingston works through the fundamentals of cultural, literary, and science studies and makes them comprehensible to

a non-specialist audience.

history or society. But Sartre does more than indict. He offers a definitive statement about the phenomenology of reading, and he goes on to provide a dashing example of how to write a history of literature that takes ideology and institutions into account.

Bourdieu and Literature Aug 25 2022 Bourdieu and Literature is a wide-ranging, rigorous and accessible introduction to the relationship between Pierre Bourdieu's work and literary studies. It provides a comprehensive overview and critical assessment of his contributions to literary theory and his thinking about authors and literary works. One of the foremost French intellectuals of the post-war era, Bourdieu has become a standard point of reference in the fields of anthropology, linguistics, art history, cultural

studies, politics, and sociology, but his longstanding interest in literature has often been overlooked. This study explores the impact of literature on Bourdieu's intellectual itinerary, and how his literary understanding intersected with his sociological theory and thinking about cultural policy. This is the first full-length study of Bourdieu's work on literature in English, and it provides an invaluable resource for students and scholars of literary studies, cultural theory and sociology.

Studying English Literature Oct 15 2021 Studying English Literature

is a unique guide for undergraduates beginning to study the discipline of literature and those who are thinking of doing so. Unlike books that provide a survey of literary history or non-subject specific manuals that offer rigid guidelines on how to write essays, *Studying English Literature* invites students to engage with the subject's history and theory whilst at the same time offering information about reading, researching and writing about literature within the context of a university. The book is practical yet not patronizing: for example, whilst the discussion of plagiarism provides clear guidelines on

how not to commit this offence, it also considers the difficulties students experience finding their own 'voice' when writing and provokes reflection on the value of originality and the concepts of adaptation, appropriation and intertextuality in literature. Above all, the book prizes the idea of argument rather than insisting upon formulaic essay plans, and gives many ways of finding something to say as you read and when you write, in chapters on Reading, Argument, Essays, Sentences and References. **Modernism and Literature** Jun 30 2020 This volume offers a
