The A-904 and A-727, debuting  
in 1960 and 1962, respectively,  
are 3-speed automatic Chrysler  
TorqueFlite Transmissions. In  
Mopar circles, they have  
become synonymous with  
strength, durability, and  
performance. In fact, 43 years  
after its first application,  
A-904s were still found in the  
Jeep lineup! TorqueFlites are  
known for their dependability,  
but many have endured a  
tremendous amount of abuse  
over 50-plus years when  
hooked up to V-8 Mopar  
powerplants. There is little

doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more important, it will help you get your Mopar back on the road! p.p1 {margin: 0.0px 0.0px 0.0px; font: 12.0px Arial} This 1976 Cadillac Seville Fisher Body Service Manual is a high-quality, licensed PRINT reproduction of the BODY service manual authored by General Motors Corporation and published by Detroit Iron.
