Uncovering the Logic of English: A Common-Sense Solution to America's Literacy Crisis Sep 04 2020 "English is so illogical!" It is generally believed that English is a language of exceptions. For many, learning to spell and read is frustrating. For some, it is impossible... especially for the 29% of Americans who are functionally illiterate. But what if the problem is not the language itself, but the rules we were taught? What if we could see the complexity of English as a powerful tool rather than a hindrance? --Denise Eide Uncovering the Logic of English challenges the notion that English is illogical by systematically explaining English spelling and answering questions like "Why is there a silent final E in have, large, and house?" and "Why is discussion spelled with -sion rather than -tion?" With easy-to-read examples and anecdotes, this book describes: - the phonograms and spelling rules which explain 98% of English words - how English words are formed and how this knowledge can revolutionize vocabulary development - how understanding the reasons behind English spelling prevents students from needing to guess The author's inspiring commentary makes a compelling case that understanding the logic of English could transform literacy education and help solve America's literacy crisis. Thorough and filled with the latest linguistic and reading research, Uncovering the Logic of English demonstrates why this systematic approach should be as foundational to our education as  $1+1=2$ .

**How to Teach Handwriting** May 13 2021 Two mistakes of an opposite nature have been made in teaching writing. The first is to expect writing to grow up incidentally without giving the child any specific training in the writing act. The second is to suppose that teaching writing is some strange mysterious process which can be mastered only by special teachers who have had a large amount of technical training. However, writing can be taught by the grade teacher and there are strong reasons why it should be so taught. Writing is an activity which the child performs in much of his/her school work besides his writing lesson. It is necessary that all the writing be done properly, and it is the grade teacher who must see that it is properly done.
