Thank You for My Service Jun 25 2022 NEW YORK TIMES BESTSELLER • The unapologetic, laugh-your-ass-off military memoir both vets and civilians have been waiting for, from a five-tour Army Ranger turned YouTube phenomenon and zealous advocate for veterans Members of the military's special operations branches share a closely guarded secret: They love their jobs. They relish the opportunity to fight. They are thankful for it, even, and hopeful that maybe, possibly, they'll also get to kill a bunch of bad guys while they're at it. You don't necessarily need to thank them for their service—the pleasure is all theirs. In this hilarious and personal memoir, readers ride shotgun alongside former Army Ranger and private military contractor and current social media phenomenon Mat Best, into the action and its aftermath, both abroad and at home. From surviving a skin infection in the swampy armpit of America (aka Columbus, Georgia) to kicking down doors on the outskirts of Ramadi, from blowing up a truck full of enemy combatants to witnessing the effects of a suicide bombing right in front of your face, Thank You for My Service gives readers who love America and love the good guys fresh insight into what it's really like inside the minds of the men and women on the front lines. It's also a sobering yet steadying glimpse at life for veterans after the fighting stops, when the enemy becomes self-doubt or despair and you begin to wonder why anyone should be thanking you for anything, least of all your service. How do you keep going when something you love turns you into somebody you hate? For veterans and their friends and families, Thank You for My Service will offer comfort, in the form of a million laughs, and counsel, as a blueprint for what to do after the war ends and the real fight begins. And for civilians, this is the insider account of military life you won't find anywhere else, told with equal amounts of heart and balls. It's Deadpool meets Captain America, except one went to business school and one went to therapy, and it's anyone's guess which is which.

Passing Mar 30 2020 Generally regarded as Nella Larsen's best work, Passing was first published in 1929 but has received a lot of renewed attention because of its close examination of racial and sexual ambiguities. It has achieved canonical status in many American universities. Clare Kendry is living on the edge. Light-skinned, elegant, and ambitious, she is married to a racist white man unaware of her African American heritage, and has severed all ties to her past after deciding to 'pass' as a white woman. Clare's childhood friend, Irene Redfield, just as light-skinned, has chosen to remain within the African American community, and is simultaneously allured and repelled by Clare's risky decision to engage in racial masquerade for personal and societal gain. After frequenting African American-centric gatherings together in Harlem, Clare's interest in Irene turns into a homoerotic longing for Irene's black identity that she abandoned and can never embrace again, and she is forced to grapple with her decision to pass for white in a way that is both tragic and telling.

Military Recruiting in the United States Sep 04 2020 Military Recruiting in the United States provides a fearless and penetrating description of the deceptive practices of the U.S. military as it recruits American youth into the armed forces. Long-time antiwar activist Pat Elder exposes the underworld of American

military recruiting in this explosive and consequential book. The book describes how recruiters manage to convince youth to enlist. It details a sophisticated psy-ops campaign directed at children. Elder describes how the military encourages first-person shooter games and places firearms into the hands of thousands using the schools, its JROTC programs, and the Civilian Marksmanship Program to inculcate youth with a reverence for guns. Previously unpublished investigative work reveals how indoor shooting ranges in schools are threatening the health of children and school staff through exposure to lead particulate matter. The book provides a kind of "what's coming next manual" for European peacemakers as they also confront a rising tide of militarism. The book examines the disturbing, nurturing role of the Catholic Church in recruiting youth. It surveys the wholesale military censorship of Hollywood films, pervasive military testing in the high schools, and an explosion of military programs directed toward youth. Woodstock Nation Sep 16 2021 "Abbie Hoffman, Yippie non-leader, notorious dope addict and up-and-coming rock group (the WHAT), is currently on trial with seven others for conspiracy to incite riot during the Democratic Convention. When he returned from the Woodstock Festival he had five days before leaving for Chicago to prepare for the trial. Woodstock Nation, which the author wrote in longhand while lying upside down, stoned, on the floor of an unused office of the publisher, is the product of those five days. Other works by Mr. Hoffman include Revolution for the Hell of It and Fuck the System, which he describes as a "tender love epic".-- Back cover.

Shades of Green May 13 2021 Drawing on records of about 5,500 soldiers and veterans, Shades of Green traces the organization of Irish regiments from the perspective of local communities in Connecticut, Illinois, and Wisconsin and the relationships between soldiers and the home front. Research on the impact of the Civil War on Irish Americans has traditionally fallen into one of two tracks, arguing that the Civil War either further alienated Irish immigrants from American society or that military service in defense of the Union offered these men a means of assimilation. In this study of Irish American service, Ryan W. Keating argues that neither paradigm really holds, because many Irish Americans during this time already considered themselves to be assimilated members of American society. This comprehensive study argues that the local community was often more important to ethnic soldiers than the imagined ethnic community, especially in terms of political, social, and economic relationships. An analysis of the Civil War era from this perspective provides a much clearer understanding of immigrant place and identity during the nineteenth century. With a focus on three regiments not traditionally studied, the author provides a fine-grained analysis revealing that ethnic communities, like other types of communities, are not monolithic on a national scale. Examining lesser-studied communities, rather than the usual those of New York City and Boston, Keating brings the local back into the story of Irish American participation in the Civil War, thus adding something new and valuable to the study of the immigrant experience in America's bloodiest conflict. Throughout this rich and groundbreaking study, Keating supports his argument through advanced quantitative analysis of military-service records and an exhaustive review of a massive wealth of raw data; his use of quantitative methods on a large dataset is an unusual and exciting development in Civil War studies. Shades of Green is sure to "shake up" several fields of study that rely on ethnicity as a useful category for analysis; its impressive research provides a significant contribution to scholarship.

And Party Every Day Mar 11 2021 Now it can be told! The true, behind-the-scenes story of Casablanca Records, from an eyewitness to the excess and insanity. Casablanca was not a product of the 1970s, it was the 1970s. From 1974 to 1980, the landscape of American culture was a banquet of hedonism and self-indulgence, and no person or company in that era of narcissism and druggy gluttony was more emblematic of the times than Casablanca Records and its magnetic founder, Neil Bogart. "And Party Every Day" is a frontline look at the record label that exploded onto the 1970s music scene, rising faster, burning brighter, and crashing in a more spectacular fashion than any other label in history. From

Bogart's daring first signing, the positively pyrotechnic "Kiss", through the discovery and superstardom of Donna Summer and the Village People - not to mention extraterrestrial funk master George Clinton and his circus of freaks, Parliament Funkadelic - to the descent into the manic world of disco and its attendant vices, this book charts Bogart's meteoric success and eventual collapse under the weight of uncontrolled ego and hype. A compelling tale of ambition, greed, excess, and some of the era's most biggest music acts. Written with great candour and humour by Larry Harris, Casablanca's co-founder and former senior vice president and managing director, "And Party Every Day" is the only definitive and firsthand look at Casablanca's remarkable story, and a breathtaking view of that great American era of extravagance. It includes dozens of never-before-seen photos and a complete discography.

Self Versus Others Jan 09 2021 Self Versus Others explores the third-person effect and its role in media as a means of persuasion. This scholarly work synthesizes more than two decades of research on the third-person effect, the process in which individuals do not perceive themselves to be impacted by particular messages—such as persuaded to engage in risky behaviors or encouraged to be violent—but they believe others will be. Authors Julie L. Andsager and H. Allen White focus their analysis specifically on the role of media and media messages, and assert that the third-person effect functions as a means of persuasion. They explore the underlying concepts and connections this effect shares with established theories of persuasion and mediated communication. The only volume to date focusing on the topic, Self Versus Others demonstrates the significant impact persuasion has on public opinion, behavior, and policy. As such, understanding the means through which persuasion can be accomplished thereby provides a powerful tool. Timely and succinct, this book: *provides thorough synthesis of third-person effect literature; *argues that systematic versus heuristic processing underlies third-person perceptions; and *conceptually links third-person effects with co-orientation. Intended for communication scholars with an interest in persuasion, as well as those in key areas including mass communication, health communication, and political communication, this book is also appropriate for advanced courses in persuasion, communication theory, and campaigns.
