[Planning Useful Evaluations](#) Oct 27 2019 Rutman presents a method of assessing the value of an evaluation before undertaking the research. An evaluability assessment is, in effect, a feasibility study. It identifies which programmes (or aspects of programmes) can appropriately and effectively be measured in order to conduct an effective evaluation. *The Nimrod Review* Dec 10 2020 On 2 September 2006, RAF Nimrod XV230 was on a routine mission in southern Afghanistan when she suffered a catastrophic mid-air fire, leading to the total loss of the aircraft and the death of the 12 crew and two mission specialists on board. An RAF Board of Inquiry (2007) concluded that the loss was

caused by a fuel escape and its ignition by contact with an exposed element of the Cross-Feed/Supplementary Cooling Pack (SCP) duct. The Nimrod Review was set up to examine the arrangements for ensuring airworthiness and safe operation of the Nimrod MR2, to assess where responsibility lies for any failure and what lessons are to be learned. The Review concludes the most likely source of fuel was an overflow during air-to-air refuelling and agrees with the ignition source. It highlights design flaws introduced at three stages in the life of XV230, and failure to heed previous potentially relevant incidents. The Nimrod safety case drawn up between 2001 and 2005 is found to be error-strewn and incompetent and characterised by a general malaise, an assumption that the Nimrod was safe because it had flown for 30 years. The Review criticises BAE Systems, the MoD Nimrod Integrated Project Team, QinetiQ and individual personnel from those organisations involved in the safety case. Organisational causes are also identified: in-service support for equipment; major organisational changes between 1998 and 2008; and delays in procurement of the Nimrod MRA4 replacement. Lessons to be learned are profound and wide-ranging. Recommendations are made for a new approach in eight key areas: principles (leadership, independence, people, simplicity); the airworthiness regime; safety cases; aged aircraft; personnel strategy; industry strategy; procurement; safety culture. The loss of XV230 was avoidable and a systemic breach of the Military Covenant.

*The Canine Good Citizen* May 03 2020 "...purebred or mixed, with this book any dog can become a Canine Good Citizen.... The Volhards'...approach to training, which they call the Motivational Method,...is designed to do just that motivate the owner and the dog. The Motivational Method is grounded on a thorough knowledge of how people learn and dog behavior. Since 1983 they have authored or co-

authored four major books on dog training and teaching dog Obedience classes, and have produced four video tapes. I am...pleased that they have written this book on the Canine Good Citizen. I cannot think of anyone else who could have done a better job. This book contains everything the reader needs to know about training any dog to become a Canine Good Citizen. Still, there is much more the book shares a wealth of insights for the beginner, as well as the experienced dog person. The book's best feature is that it gives each person the means to tailor the training to the individual dog's character and temperament. It thoroughly explains what makes dogs different and how these differences dictate the approach to training that needs to be taken." James E. Dearing, AKC Vice President, Obedience The American Kennel Club's Canine Good Citizen program was developed to promote responsible dog ownership in a manner that would be easy for both dog and owner. Any book that promotes and encourages dog owners to participate is doing a public service, and this book does it well. "This book is aptly named. Yes, every dog, both pure-bred dogs and mixed breeds, can be a good citizen if their owners care enough to make it happen. The key is to encourage dog owners everywhere to be responsible enough to make their dogs a pleasure to be around and able to handle most situations that they might be expected to encounter in everyday life." Robert H. McKowen AKC Vice President, Performance Events A Howell Dog Book of Distinction

This important new text offers a better understanding of the biology and control of parasitic infections necessary to reduce or eliminate future outbreaks in the U.S. and elsewhere.

**The Social Contract & Discourses** Mar 13 2021 The Social Contract & Discourses: Translated With Introduction By G. D. H. Cole, Edited By Ernest Rhys This book is a result of an effort made by us towards making

a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional/unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!

*Poetry for Historians* Feb 09 2021 This is a book about the conflict between history and poetry - and historians and poets - in Atlantic World society from the end of the seventeenth century to the present day. Blending historiography and theory, it proceeds by asking: what is the point of poetry as far as historians are concerned? The focus is on W. H. Auden's Cold War-era history poems, but the book also looks at other

poets from the seventeenth century onwards, providing original accounts of their poetic and historical educations. An important resource for those teaching undergraduate and postgraduate courses in historiography and history and theory, Poetry for historians will also be of relevance to courses on literature in society and the history of education. General readers will relate it to Steedman's Landscape for a Good Woman (1987) and Dust (2001), on account of its biographical and autobiographical insights into the way history operates in modern society.

**Storming Heaven: A Novel** Jul 05 2020 This is the story of the miners and the union they wanted, of the people who loved them and the people who wanted to kill their dreams. Annadel, West Virginia, was a small town rich in coal, farms, and close-knit families, all destroyed when the coal company came in. It stole everything it hadn't bothered to buy—land deeds, private homes, and ultimately, the souls of its men and women. Four people tell this powerful, deeply moving tale: Activist Mayor C. J. Marcum. Fierce, loveless union man Rondal Lloyd. Gutsy nurse Carrie Bishop, who loved Rondal. And lonely, Sicilian immigrant Rosa Angelelli, who lost four sons to the deadly mines. They all bear witness to nearly

forgotten events of history, culminating in the final, tragic Battle of Blair Mountain—when the United States Army greeted ten thousand unemployed pro-union miners with airplanes, bombs, and poison gas. It was the first crucial battle of a war that has yet to be won.
