Barry Unsworth returns to the terrain of his Booker Prize-winning novel *Sacred Hunger*, this time following Sullivan, the Irish fiddler, and Erasmus Kemp, son of a Liverpool slave ship owner who hanged himself. It is the spring of 1767, and to avenge his father's death, Erasmus Kemp has had the rebellious sailors of his father's ship, including Sullivan, brought back to London to stand trial on charges of mutiny and piracy. But as the novel opens, a blithe Sullivan has escaped and is making his way on foot to the north of England, stealing as he goes and sleeping where he can. His destination is Thorpe in the East Durham coalfields, where his dead shipmate, Billy Blair, lived: he has pledged to tell the family how Billy met his end. In this village, Billy's sister, Nan, and her miner husband, James Bordon, live with their three sons, all destined to follow their father down the pit. The youngest, only seven, is enjoying his last summer aboveground. Meanwhile, in London, a passionate anti-slavery campaigner, Frederick Ashton, gets involved in a second case relating to the lost ship. Erasmus Kemp wants compensation for the cargo of sick slaves who were thrown overboard to drown, and Ashton is representing the insurers who dispute his claim. Despite their polarized views on slavery, Ashton's beautiful sister, Jane, encounters Erasmus Kemp and finds herself powerfully attracted to him. Lord Spenton, who owns coal mines in East-Durham, has extravagant habits and is pressed for money. When he applies to the Kemp merchant bank for a loan, Erasmus sees a business opportunity of the kind he has long been hoping for, a way of gaining entry into Britain's rapidly developing and highly profitable coal and steel industries. Thus he too makes his way north, to the very same village that Sullivan is heading for . . . With historical

sweep and deep pathos, Unsworth explores the struggles of the powerless and the captive against the rich and the powerful, and what weight mercy may throw on the scales of justice. This honest, clearly written, and accessible book shows how to use Family Dialogue Journals (FDJs) to increase and deepen learning across grade levels. Written by K-12 teachers who have been implementing and studying the use of weekly journals for several years, it shares what they have learned and why they have found FDJs to be an invaluable tool for forming effective partnerships with families. Learn from first-hand accounts how students write weekly about one big idea they have studied, ask a family member a related question, and then solicit their writing in the journal. Through these journal entries, they share their family knowledge with classmates while actively engaging with the curriculum. In turn, teachers extend the academic discussion by writing to each family and incorporating their funds of knowledge into classroom lessons—writing about everything from the use of thermometers to life in Michoacán, Mexico. Family participation in the FDJs is remarkably high across ages, ethnicities, and economic realities. "This is an incredibly readable book that is highly useful for teachers, teacher educators, and university researchers interested in this powerful practice. The descriptions of the classrooms are riveting and exemplify the kind of teaching we would all like to see in every classroom." —Kathy Schultz, dean and professor, Mills College "Family Dialogue Journals is a beautiful, socially conscious book offering so much wisdom for curriculum, classroom norms, and creating learning-focused contexts. Readers will be immersed in classroom contexts, teachers' decisionmaking processes, and practical advice about how to foster a humble, genuine, ongoing dialogue built upon mutual respect and openness with their students and students' families. Family Dialogue Journals doesn't just demonstrate the power of interpersonal relationships, it links those dialogues and relationships directly to curriculum and supporting students' critical literacies of both community and academic ways of knowing and being Family Dialogue Journals is a beautiful, socially conscious book offering so much wisdom for curriculum, classroom norms, and creating learning-focused contexts." —Stephanie Jones, professor, University of Georgia

JOTTINGS IN THE WOODS, WALT WHITMAN'S NATURE PROSE AND A STUDY OF OLD PINE FARM is a unique combination of Whitman's stunning nature descriptions and the down-to-earth profile of a current program to protect land in South Jersey. While Whitman lived in Camden, he was stricken by paralysis. The Stafford family in Laurel Springs invited him to be their guest. During his stays, he walked along the Big Timber Creek and wrote about the nature he saw. The Old Pine Farm Natural Lands Trust in Deptford was founded to protect what is now nearly forty acres of woodlands, meadow and wetlands along the same Big Timber Creek. It is as though Whitman wrote his essays just yesterday, and the land trust is a current, living reflection of what Whitman experienced so long ago. Photographs, maps, drawings. "The teachings in this book come as natural and lively as the land it celebrates. Walt Whitman's vibrant jottings stir our senses, showing us how to wake up and see, smell, hear the daily wonders of the natural world, right at the edge of our city lives. With those who

have come, over a century later, to love the same small realm of creek, woods and wetland, we learn how that full-body attention to life translates into service and the commitment to restore. Another lesson I love in this book is the way Old Pine Farm ignites people's dreams and energies to work together. The all-volunteer staff and board, neighbors, naturalists, scouts, high schoolers have generated an ecosystem of human community, whose powerful magic is this: to use the present moment to preserve the gifts of the past for the sake of our common future." -Joanna Macy Advocate of Deep Ecology and author of *Coming Back to Life* "Walt Whitman has been celebrated as an experimental poet who introduced the long line and free verse, as advocate of an uninhibited sensory and sexual life, and as a would-be founder of a new religion. But underlying all of these images of the poet is the Whitman who experienced the natural world as a manifestation of divine love and reciprocated this love in his poetry and remarkable prose "jottings." As we face an era of impending climate change, the editors have given us a choice sampling of Whitman's least known but best prose nature-writing. They also tell a heart-warming story of preserving an area of South Jersey streams and wetlands and woods that Whitman walked in and wrote about in riveting detail. Read this book and then plant a tree in honor of Old Walt and the good folk at Old Pine Farm." -David Kuebrich, Whitman Scholar and author of *Minor Prophecy: Walt Whitman's New American Religion*

Original. From the author of the #1 New York Times bestseller *The Monuments Men* "An astonishing account of a little-known American effort to save Italy's...art during World War II."—Tom Brokaw When Hitler's armies occupied Italy in 1943, they also seized control of mankind's greatest cultural treasures. As they had done throughout Europe, the Nazis could now plunder the masterpieces of the Renaissance, the treasures of the Vatican, and the antiquities of the Roman Empire. On the eve of the Allied invasion, General Dwight Eisenhower empowered a new kind of soldier to protect these historic riches. In May 1944 two unlikely American heroes—artist Deane Keller and scholar Fred Hartt—embarked from Naples on the treasure hunt of a lifetime, tracking billions of dollars of missing art, including works by Michelangelo, Donatello, Titian, Caravaggio, and Botticelli. With the German army retreating up the Italian peninsula, orders came from the highest levels of the Nazi government to transport truckloads of art north across the border into the Reich. Standing in the way was General Karl Wolff, a top-level Nazi officer. As German forces blew up the magnificent bridges of Florence, General Wolff commandeered the great collections of the Uffizi Gallery and Pitti Palace, later risking his life to negotiate a secret Nazi surrender with American spymaster Allen Dulles. Brilliantly researched and vividly written, the New York Times bestselling *Saving Italy* brings readers from Milan and the near destruction of *The Last Supper* to the inner sanctum of the Vatican and behind closed doors with the preeminent Allied and Axis leaders: Roosevelt, Eisenhower, and Churchill; Hitler, Göring, and Himmler. An unforgettable story of epic thievery and political intrigue, *Saving Italy* is a testament to heroism on behalf of art, culture, and history. Attorney Sabre Brown is having a great time geocaching, the

Internet's version of a treasure hunt. The fun ceases when she "caches" a container with an official death certificate citing "Murder by Poison" as the cause of death. Even more disturbing is that the date of death is ten days in the future. Sabre is forced to search cache after cache, each revealing more clues, until they take an unexpected twist and shockingly point to one of her court cases. Is the murderer a rejected child, a well-known plastic surgeon, a scorned ex, a crooked lab technician, or a politician in line for the highest office in the land? Or is someone playing Sabre in an ugly geocache of life and death? Attorney Sabre O. Brown receives a text with an image of a dead man, a social worker she recently opposed in juvenile court. Did he fall, or was he pushed? As she and JP, her private investigator, search court cases for the suspected killer, the texts become more frightening and personal. Soon packages with dire warnings threaten Sabre and her loved ones. Their frantic search uncovers disturbing revelations, putting Sabre in the crosshairs of a clock-ticking threat. With her life on the line, will she discover the stalker in time-or become a victim of the Advocate's Killer? This antique book contains a collection of letters and journal entries, from Elihu Burritt. Elihu Burritt was a poor boy. Like other boys a hundred years ago, he gloried in the idea of self-improvement, and like many of his contemporaries he became a self-made man. But it was not worldly riches that he made. His lifelong ideal was to serve man kind, to promote human brotherhood, and he was never tempted to take another path. Unlike most Americans, he had no ambition to rise above the working class from which he came. This fascinating text will appeal to those with an interest in the early twentieth century, and will be of considerable value to collectors of such literature. The chapters of this book include: 'A Self-Made Man', 'The Crusade for World Peace', 'The Campaign for Ocean Penny Postage', 'Slavery and Civil War', and 'Assisted Emigration and Arbitration'. This volume was first published in 1937, and is proudly republished now for the enjoyment and edification of discerning readers. An act of kindness can change everything for anyone. When Attorney Sabre Brown's eccentric Aunt Goldie dies, leaving a series of cryptic notes, Sabre launches the most intriguing and frustrating investigation of her life. While sorting through the piles of junk her hoarder aunt left behind, Sabre must keep Goldie's greedy, dysfunctional children at bay. But she also discovers unexpected treasures, family secrets, and her aunt's suspicions that someone was trying to kill her. But soon Sabre is torn in another direction when she takes a case involving four children whose brother was murdered in their home, and no evidence of who killed him. When her PI boyfriend and good-natured brother step in to help, they also get caught up in the labyrinth of clutter, deceit, and attempted murder. Sabre must hold everything together long enough to bring a killer to justice, protect the child's siblings, and carry out her aunt's bizarre last wishes. Today millions of kids are stuck in a world that doesn't respect, support, or embrace who they really are—these are what Deborah Reber is calling the “differently wired” kids, the one in five children with ADHD, dyslexia, Asperger’s, giftedness, anxiety, sensory processing disorder, and other neurodifferences. Their challenges are many. But for the

parents who love them, the challenges are just as hard—struggling to find the right school, the right therapist, the right parenting group while feeling isolated and harboring endless internal doubts about what’s normal, what’s not, and how to handle it all. But now there’s hope. Written by Deborah Reber, a bestselling author and mother in the midst of an eye-opening journey with her son who is twice exceptional (he has ADHD, Asperger’s, and is highly gifted), *Differently Wired* is a how-to, a manifesto, a book of wise advice, and the best kind of been-there, done-that companion. On the one hand it’s a book of saying NO, and how it’s time to say no to trying to fit your round-peg kid into society’s square holes, no to educational and social systems that don’t respect your child, no to the anxiety and fear that keep parents stuck. And then it’s a book of YES. By offering 18 paradigm shifts—what she calls “tilts”— Reber shows how to change everything. How to “Get Out of Isolation and Connect.” “Stop Fighting Who Your Child Is and Lean In.” “Let Go of What Others Think.” “Create a World Where Your Child Can Feel Secure.” “Find Your People (and Ditch the Rest).” “Help Your Kids Embrace Self-Discovery.” And through these alternative ways of being, discover how to stay open, pay attention, and become an exceptional parent to your exceptional child. This volume represents a more Africanist approach to the framework of maritime landscapes and challenges of adapting international heritage policy such as the UNESCO convention. While the concept of a maritime landscape is very broad, a more focused thematic strategy draws together a number of case studies in South Africa, Namibia, Tanzania, and Nigeria with a common thread. Specifically, the contributors address the sub-theme of sea ports and sea power as part of understanding the African maritime landscape. Sea ports and surrounds are dynamic centers of maritime culture supporting a rich diversity of cultural groups and economic activities. Strategic locations along the African coastline have associations with indigenous maritime communities and trade centers, colonial power struggles and skirmishes, establishment of naval bases and operations, and World War I and II engagements. From the author of the New York Times bestseller that defined nature-deficit disorder and launched the international children-and-nature movement, *Vitamin N* (for “nature”) is a complete prescription for connecting with the power and joy of the natural world right now, with 500 activities for children and adults. Dozens of inspiring and thought-provoking essays. Scores of informational websites. Down-to-earth advice. In his landmark work *Last Child in the Woods*, Richard Louv was the first to bring widespread attention to the alienation of children from the natural world, coining the term nature-deficit disorder and outlining the benefits of a strong nature connection—from boosting mental acuity and creativity to reducing obesity and depression, from promoting health and wellness to simply having fun. That book “rivaled Rachel Carson’s *Silent Spring*” (the *Cincinnati Enquirer*), was “an absolute must-read for parents” (the *Boston Globe*), and “an inch-thick caution against raising the fully automated child” (the *New York Times*). His follow-up book, *The Nature Principle*, addressed the needs of adults and outlined a “new nature movement and its potential to improve the lives of all people no matter where they live” (McClatchy Newspapers). *Vitamin N* is a one-of-a-kind, comprehensive, and practical guidebook for the whole family and the wider community, including tips not only for parents eager to share nature with their kids but also for those seeking nature-smart schools, medical professionals, and even careers. It is a dose of pure inspiration, reminding us that looking up at the stars or taking a walk in the woods is as exhilarating as it is essential, at any age. When Hitch runs into Nate Conner, he's the last person she would expect support from. Newly released from jail, Conner has his own problems. A thug is pressuring him for money, and his little sister Kaylee is missing. Determined to go straight, Conner decides that Hitch is the one person he can trust with his suspicions. They develop a plan, but everything goes sideways. The snitch who testified against Conner turns up dead, and all the evidence points to him. Then another key player is murdered, and Kaylee goes deeper into hiding. On top of all that, Hitch's trial gets derailed when the victim's OnlyFans videos are revealed in court—a devastating blow. Can Conner and Hitch beat the odds to bring down the

corrupt prosecutor, win the trial, and find Kaylee in time to save her?
