Long Walk to Freedom Dec 14 2020 The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and

exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

Trick Geography May 31 2022 "I can't believe how much I just learned!" That was one mom's response after observing a single class session of Trick Geography. Trick Geography: Africa--Teacher Guide (Student Book sold separately) is a simple, yet powerful geography curriculum which routinely moves students from geographic illiteracy to command of African countries, their shapes and capitals, and major bodies of water, mountains, and deserts in about 6 weeks. And all with pleasure and high retention! How does it work? Morocco looks like a maraca, so we trace the dotted outline of a maraca drawn inside the country's border. The capital is Rabat, so we circle a robot (Rabat) shaking the maraca (Morocco). It's THAT easy! Physical features are taught using simple connections. "Atlas (Atlas Mountains) builds his muscles by lifting the maraca (Morocco)." Delightful graphics, phonetic connectors, dot-to-dots, and fill-in-the-blanks facilitate multiple learning styles and make the process more like a game than a curriculum. Trick Geography is easy enough for elementary students yet sophisticated enough for the high schooler and adult. It is ideal for home or school settings. Teachers appreciate the simple instructions which require virtually no prep time or learning curve and which give students the option of going through the program on their own. Evaluation is a cinch with matching tests which are included. Recommended for ages 8 to adult. 59 pages. (The Trick Geography: USA and World editions are also available.) www.TrickGeography.com

Teaching English in Africa Nov 12 2020 *Teaching English in Africa* is a practical guide written for primary and secondary school teachers working all over the continent. This book relates the practice of English language teaching directly to the African context. As well as covering the underlying theory of how children learn languages and how teachers can best facilitate this learning, it also provides practical resources and ideas for activities and techniques that have proved successful in English classrooms in Africa, both at primary and secondary level. It is intended to be a practical guide, so references and citations are kept to a minimum and concepts are presented using examples that are likely to be familiar to most teachers working in Africa. If there is a bias in this book, it is towards the needs of teachers working in low-resource, isolated contexts in Africa, as these teachers are so often neglected by literature on teaching methodology.

The Soccer Fence Jul 01 2022 In a country struggling with acceptance, hope can come in many different forms. As a boy, Hector loved playing soccer in his small Johannesburg township. He dreamed of playing on a real pitch with the boys from another part of the city, but apartheid made that impossible. Then, in 1990, Nelson Mandela was released from prison, and apartheid began to crumble. The march toward freedom in South Africa was a slow one, but when the beloved Bafana Bafana national soccer team won the African Cup of Nations, Hector realized that dreams once impossible could now come true. This poignant story of friendship artfully depicts a brief but critical moment in South Africa's history and the unique role that sports can play in bringing people together.
