In 1971, teachers Barb and Clark Olson, together with the two small children, moved to Gondar, Ethiopia. For four years, Barb kept a detailed journal about the family's experiences, recording people's stories and events both domestic and political, local and national, chronicling the early days of the revolution, as well as the drought and famine moving across this East African nation. Barb now lives with her husband in Springfield, Illinois where she writes and is a community organizer. This book is a Thank you to the people of Gondar and a tribute to the resiliency and vision of Ethiopia's youth. Several of these stories are published separately, including the children's book, Christmas in Gondar, Five Ethiopian Stories, available soon. A concise Amharic-English, English-Amharic dictionary provides definitions along with phonetic transcriptions of Amharic script. This heartfelt memoir and travel story is about an idealistic young woman forced to confront the limitations of how much difference she can make in a country rich in culture but stark in its deprivations. Julie Sprigg spent three years in Ethiopia, volunteering at a convent

clinic and then teaching the first physiotherapy cohort to ever graduate from Gondar University. In Ethiopia she falls in love, and learns as much about herself as she does about this complex, magnificent country and its people. NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller Guitar Zero At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated

spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day. This new, fully updated 8th edition of **Bradt's Ethiopia** remains the most comprehensive, detailed and thorough guide available, particularly known for its strength of background information, coverage of off-the-beaten track areas, and in-depth details of hotels and other tourist facilities. It also contains far more maps than other guides. **Bradt's Ethiopia** is also the longest-serving English-language guidebook dedicated to the country, with a history of 25 years of research and expertise. This new edition has been updated by the original author, Philip Briggs, the world's foremost writer of Africa travel guides. Recent years have seen a notable rise in domestic and foreign private investment in the development of new hotels and national parks; this new edition includes all the most up-to-date details reflecting the recent changes, from development of tourist facilities to improved road infrastructure. **Bradt's**

Ethiopia is ideal for visitors of all ages no matter the interest, whether travelling independently or as part of an organised group, from adventurous and active travellers interested in cultural, historical, and wildlife sightseeing to international conference visitors, spa tourists and community-based visitors looking for activities such as trekking and horseriding in the Rift Valley and Simien Mountains. Wildlife and birding visitors who come for Ethiopia's wealth of endemics are also catered for and this new edition includes a dedicated colour section on wildlife and birds. Of all the African nations, Ethiopia is most prone to misconceptions. The 1985 famine and the cracked barren earth of the Danakil Depression are not images quickly forgotten. But this fully updated guide refocuses the lens to reveal an ancient country that continues to surpass all expectations: from the ancient Judaic cultures of the fertile highlands to the Animist people of the South Omo Valley, from the Afroalpine moorland of the Bale Mountains National Park to the thundering Blue Nile Falls. This book also leads you further off the beaten track, so travellers can see more of this expansive and beautiful land, believed to be the cradle of humankind. This landmark volume offers an

introduction to the field of teaching Arabic as a foreign or second language. Recent growth in student numbers and the demand for new and more diverse Arabic language programs of instruction have created a need that has outpaced the ability of teacher preparation programs to provide sufficient numbers of well-qualified professional teachers at the level of skill required. Arabic language program administrators anticipate that the increases in enrollment will continue into the next decades. More resources and more varied materials are seriously needed in Arabic teacher education and training. The goal of this Handbook is to address that need. The most significant feature of this volume is its pioneer role in approaching the field of Arabic language teaching from many different perspectives. It offers readers the opportunity to consider the role, status, and content of Arabic language teaching in the world today. The Handbook is intended as a resource to be used in building Arabic language and teacher education programs and in guiding future academic research. Thirty-four chapters authored by leaders in the field are organized around nine themes: *Background of Arabic Language Teaching; *Contexts of Arabic

Language Teaching; *Communicative Competence in Arabic; *The Learners; *Assessment; *Technology Applications; *Curriculum Development, Design, and Models; *Arabic Language Program Administration and Management; and *Planning for the Future of Arabic Language Learning and Teaching. The Handbook for Arabic Language Teaching Professionals in the 21st Century will benefit and be welcomed by Arabic language teacher educators and trainers, administrators, graduate students, and scholars around the world. It is intended to create dialogue among scholars and professionals in the field and in related fields--dialogue that will contribute to creating new models for curriculum and course design, materials and assessment tools, and ultimately, better instructional effectiveness for all Arabic learners everywhere, in both Arabic-speaking and non-Arabic speaking countries. "Basic Amharic: A Teaching Manual has been prepared for use primarily by native, non-Amharic speaking Ethiopian children, adults, and foreign students whose Amharic language proficiency is between elementary and intermediate level."--P. xiii. The unmatched guide—and perfect gift—for stymied scribes and working wordsmiths everywhere, now

expanded and updated. A singular and indispensable reference tool, The Describer's Dictionary—now expanded and updated—has served for over twenty years as the go-to resource for writers who are determined to capture the world in just the right words. The dictionary uses a unique reverse definition-to-term format that makes it easy to zero in on the term you're seeking. Turn to the new section on sensory impressions, for example, to find vivid terms for "loud or jarring," such as "grating," "harsh," "piercing," "blaring," "thunderous," "cacophonous," and "raucous." And at the end of each section dozens of illustrative passages by notable fiction and nonfiction authors—including Donna Tartt, Michael Lewis, Zadie Smith, Khaled Hosseini, and Paul Theroux—bring the terminology to life. New in this edition:

- **Hundreds of additional definitions, terms, and synonyms**
- **Brand-new categories, including "Physical States and Symptoms," "Temperament and Behavior," "Rooms and Interior Spaces," "Weather and Forces of Nature," and "The Solar System"**
- **Over 400 new quotations from books, periodicals, and digital media by established and rising literary stars**
- **An index of the more than 600 authors quoted in the book**

Offers practical advice on planning an economical trip to Albania, Bosnia-Herzegovina, Bulgaria, Croatia, the Czech Republic, Hungary, Macedonia, Poland, Romania, Slovakia, Slovenia, and Yugoslavia A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year People speak different languages, and always have. The Ancient Greeks took no notice of anything unless it was said in Greek; the Romans made everyone speak Latin; and in India, people learned their neighbors' languages—as did many ordinary

Europeans in times past (Christopher Columbus knew Italian, Portuguese, and Castilian Spanish as well as the classical languages). But today, we all use translation to cope with the diversity of languages. Without translation there would be no world news, not much of a reading list in any subject at college, no repair manuals for cars or planes; we wouldn't even be able to put together flat-pack furniture. Is That a Fish in Your Ear? ranges across the whole of human experience, from foreign films to philosophy, to show why translation is at the heart of what we do and who we are. Among many other things, David Bellos asks: What's the difference between translating unprepared natural speech and translating Madame Bovary? How do you translate a joke? What's the difference between a native tongue and a learned one? Can you translate between any pair of languages, or only between some? What really goes on when world leaders speak at the UN? Can machines ever replace human translators, and if not, why? But the biggest question Bellos asks is this: How do we ever really know that we've understood what anybody else says—in our own language or in another? Surprising, witty, and written with great joie de vivre, this book is all about how we comprehend

other people and shows us how, ultimately, translation is another name for the human condition. In addition to its many other attractions, Africa offers incredible linguistic diversity. Most African languages belong to one of the following four language families: Afro-Asiatic, Nilo-Saharan, Niger-Congo (with the Bantu languages as the major branch) and Khoisan. Introduces the Syriac language spoken by the Assyrian peoples of the Middle East and its two main dialects, and offers English equivalents of words in each dialect and a phrase book with common expressions in both forms. This series is for the businessperson, tourist or student travelling in Bulgaria. It will help in common situations such as going through Customs, checking into hotel, making phone calls, going to the post office. Also included is information on history and cultures, driving tips, social customs, restaurant practices. Language skills cover a good vocabulary, fundamental grammar and phrases. This book contains essential words and phrases for effective communication with local people. There is a helpful punctuation guide and all words are given in relevant script where applicable. Includes phrases for shops and restaurants. Learn the basics of the Spanish

written literature and 175 'minor' languages with special historical or anthropological interest. We see how, with the rapidly increasing uniformity of our culture as media's influence spreads, more languages have become extinct or are under threat of extinction.
